

3-D VIRTUAL HOME TOUR INSTRUCTIONS

We offer you this year's Tour using an innovative 3-D interactive video to see homes. Thank you Coldwell Banker Best Homes for offering this experience.

Use whatever device that works on the internet for you – we recommend devices with generous screen size so you can feel like you are really visiting the scene! You use your mouse, touch screen, remote control or arrow keys to take the Tour.

Choose the home you wish to tour and click the picture or link to the 3-D video. If you blow it to FULL SCREEN, note that you now have both the Tour website and the home video open. So after viewing FULL SCREEN, ESCape/Close that 3-D video.

EASY TOUR: Choose PLAY to let the host show you the home in automatic mode.

TOUR YOURSELF: Use your mouse, finger/touch screen, or arrow keys to move around, look up, look down, turn around, and zoom in/out.

- Pop up the HELP to find out about special functions.
- Choose OPEN HIGHLIGHTS or click/tap the RINGS on the picture to move to locations.
- Point to a BULLS-EYE to read details about a feature of the scene.

Whenever you wish, CLOSE the window/screen/tab that has the home video tour. See that your device still has the Tour home page open, so you can continue exploring.

If you need extra help – no problem. Phone 360-908-2005 Leslie during the days of the Tour.

We welcome your feedback so we can improve and tell our sponsors how it went. Thank you
